2023 Global HUA Design Award · Gold

2023 Premio ROCA · Silver

2022 Kan Tai-keung Design Award · Third Prize

All three listed recognitions relate to MetaFit VR. Further evidence online.

PROJECT EXPERIENCE

Verified responsibilities and deliverables · Academic work identified

01 AFTER HUMANS DISAPPEARED — 2026

Web Designer / Technical Lead · 4-person academic team

- Led web visual integration and implementation for a four-person academic team, structuring navigation across sites, artifacts, categories and timelines.
- Built dynamic archives, maps, filters and A-Frame 3D with WordPress, Pods, PHP and JavaScript; deployed the public website and validated its core interactions.

02 SOCKOMO — 2024–2025

Visual Designer / Web Developer · Academic team of 4

- Designed brand identity, packaging visuals and a responsive website, aligning physical and digital communication.
- Delivered identity guidelines, packaging mock-ups and a QR-linked interactive web prototype for demonstration.

03 METAFIT VR — 2022–2023

UI/UX Designer · Individual academic concept

- Designed gaze- and gesture-oriented information hierarchy and training flows for a spatial fitness concept.
- Delivered high-fidelity UI, training feedback and reward prototypes for academic presentation and design competitions.

04 KARESANSUI IoT — 2023

Interaction Designer · Individual academic prototype

- Designed tangible-to-digital feedback for a meditation support experience and iterated its interaction flows.
- Built an Arduino-based interactive prototype and prepared demonstrations and testing materials.

WORK EXPERIENCE

ASSCAT · Turin Art Students' Union

Head of Publicity · Jul 2021–Mar 2025

Managed editorial planning and publishing for WeChat public accounts and Xiaohongshu; designed event posters and promotional materials for student arts events and coordinated communications.

Dalian Bee Technology Co., Ltd.

New Media / Video Editor · Oct 2021–Mar 2022

Edited brand videos, subtitles, motion graphics and social content, delivering media assets against campaign production schedules.
